FREE Water Usage Customer Portal Available to MCWD Customers

The Customer Portal allows customers to view their property's hourly usage, set abnormal use notifications and learn about ways to save water.

Mammoth Lakes, California – The Mammoth Community Water District (MCWD) wants to remind our customers that we are partnered with WaterSmart Software to offer access to a modern digital portal where you can access detailed information about your property's water use. You can reach the portal on your mobile device or web browser at <https://mcwd.watersmart.com/index.php/welcome>.

To register for this free service, just enter your MCWD billing account number and the Mammoth Lakes zip code of 93546. If you do not know your account number, look at the top right corner of your monthly bill or give us a call at 760-934-2596. The portal will provide access to hourly data, allow you to monitor for leaks, be notified of water use when you are not at the property, and receive customized recommendations on how you can save water and money.

MCWD hopes all of our customers; locals, second home owners, and business owners alike, will take advantage of this valuable tool. We look forward to working closely with each of you to make Mammoth Lakes a more sustainable and drought tolerant community.

###

MCWD provides water and wastewater utility service to the Town of Mammoth Lakes and surrounding areas. MCWD strives to provide reliable, affordable utility service to our customers and to conduct our operations in a manner reflecting our stewardship role. We encourage our customers to practice responsible use of our limited water resources, and to take advantage of the information and services available to support this goal.
