

Mammoth Community Water District

Adopted Budget for the Fiscal Year April 1, 2023- March 31, 2024

March 2022

Jeff Beatty

Introduction

The mission of the Mammoth Community Water District is to provide excellent water and wastewater services to the Town of Mammoth Lakes. The annual budget is the roadmap to accomplishing our mission. The budget describes the source and expected amounts of revenue and defines the expected types and amounts of expenditures. Once approved by the Board, the budget defines strategic and operational direction and grants authority to the managers and staff of the District to expend resources to deliver water and wastewater services.

The budget is a collaborative effort that incorporates the strategic plan developed by staff and approved by the Board. Leaders from each department are involved in the planning and allocation of resources to effectively and efficiently accomplish our mission. The budget is guided by the experience of past years and anticipates plans for the coming year.

The budget is organized into funds representing type of service (Water or Wastewater), function (Administration, Operation, or Capital) and lifecycle (Replacement or Expansion). Each fund is intended to be self-contained with balanced revenue and expenses and an appropriate reserve. The budget is primarily focused on the 2024 fiscal year (FY) and looks forward to FY 2025-2034 to project available fund balances.

The District receives revenue primarily from property taxes and fixed and variable charges for water and wastewater services from our customers. Other revenue sources are connection fees for new water/wastewater customers, fees for lab and engineering services, and interest on invested funds. The District spends money on capital assets, personnel and operating expenses, and services from outside experts.

Revenue from water sales is variable based on the availability of surface water supplied by the winter snowpack. In a low-snow year, water conservation measures may be implemented to reduce water use, which results in a corresponding reduction in water sales revenue. Snowpack this winter is well above average, and water revenue is projected to increase with less restrictive water conservation requirements.

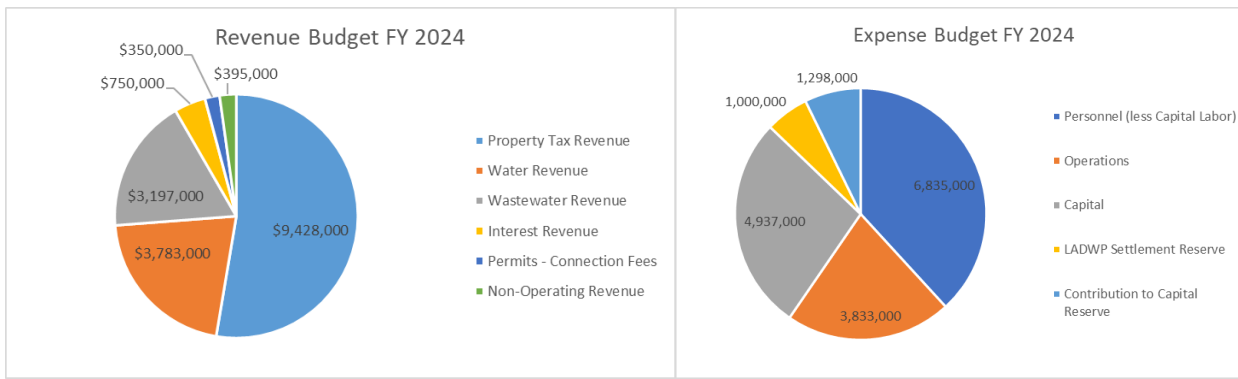

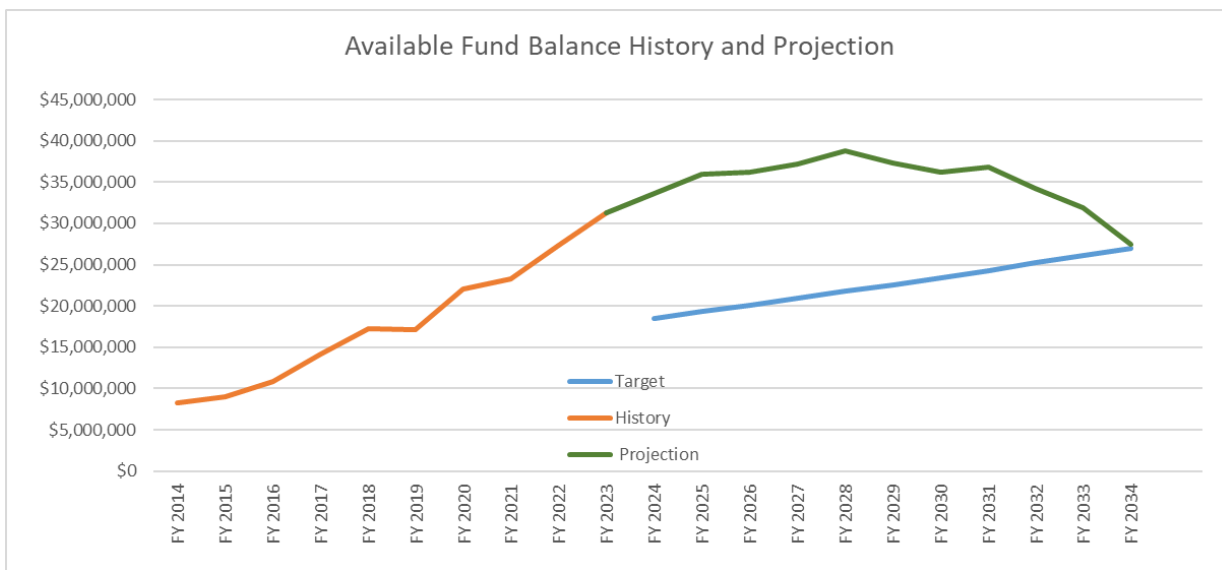

Total revenue for FY 2024 is budgeted at \$17,903,000. Budgeted expenditures on operations, personnel, and capital are \$15,605,000. A contribution of \$1,000,000 will be made to the reserve fund designated for the required future payment to LADWP. The difference of \$1,298,000 (approximately 7% of revenue) will be added to our operating and capital reserves to prepare for future needs.

Account	FY 2023 Budget	FY 2023 Proj.	FY 2024 Budget	Change - FY 2023		Change - FY 2023	
				Budget to FY 2024	Budget	Proj. to FY 2024	Budget
Total Revenue	15,713,400	17,050,000	17,903,000	2,189,600	14%	853,000	5%
Personnel (less Capital Labor)	6,124,300	5,990,000	6,835,000	710,700	12%	845,000	14%
Operations	3,740,300	3,693,000	3,833,000	92,700	2%	140,000	4%
Capital	4,260,100	3,680,000	4,937,000	676,900	16%	1,257,000	34%
LADWP Settlement Reserve			1,000,000				
Contribution to Capital Reserve	1,588,700	3,687,000	1,298,000	(290,700)		(2,389,000)	

The District has adopted an operations and capital reserve policy that defines targets for financial reserves consistent with prudent planning and risk management. The projected reserve balance at the beginning of FY 2024 is approximately \$31,308,000. The target reserve balance at the end of FY 2034 is approximately \$27,016,000. If revenue and expenses occur as projected, the 2034 reserve balance will be approximately \$27,496,000.

The District’s Reserve Policy and the FY 2024 Fund Reserve Targets are included as Attachment A to this document.

The orange line on the graph below represents the District’s historical available fund balance. The green line represents the projected fund balance. The blue line represents the target fund balance defined by the reserve policy.

This presentation is organized by:

- Revenue budget and fund balance projections
- Budgeted Operations expenses
- Budgeted Personnel expenses
- Budgeted Capital expenditures

Revenue Budget

The total revenue budget of \$17,903,000 for FY 2024 represents a 13.9% increase from the FY 2023 revenue budget and a 5% increase from the 2023 revenue projection.

- Property tax revenue in FY 2023 is projected to be 8.8% higher than the previous fiscal year. The average annual increase from FY 2016 to FY 2022 has been 4.3%. Property tax revenue for FY 2024 is budgeted at 7.7% above the FY 2023 budget and 4% above the FY 2023 projection.
- Water and wastewater base rates are budgeted at a 2% increase from FY 2023. The snowpack so far this winter is well above average and water use revenue is projected to increase with less restrictive water conservation requirements.
- The commercial wastewater flow charge was rolled into the wastewater base rate revenue in FY 2023. To provide better tracking and accountability, this revenue category is separated out in FY 2024.
- Connection fee revenue is assigned to the water and wastewater expansion funds and will be used for capital projects that expand the capacity of our water and wastewater systems. Connection fee revenue varies significantly from year to year based on economic conditions and residential and commercial development in town. The possibility of economic slowdown over the next year might decrease the development activity in town, and connection fee revenue has been budgeted higher than the FY 2023 budget but lower than the projected 2023 revenue.
- Interest revenue is the net of dividends paid by the investments in the portfolio and the gain or loss in the market value of the portfolio. Market interest rates have risen substantially over the last year and the Federal Reserve expects to increase short-term interest rates even more before beginning to reduce rates. The interest revenue is calculated based on the dividend yield of the portfolio with the expectation securities that mature over the course of the year will be replaced by higher-yielding securities.

Table A shows the budgeted revenue for FY 2024 with comparisons to the budgeted and projected revenue for FY 2023.

Table B shows projections of revenue and expenses for FY 2024 and the following five fiscal years with the projected available reserve balance for each year.

Table A – FY 2023 Budgeted Revenue

Account	Budget FY 2023	Projection	Budget FY	Change - FY 2023		Change FY 2023	
		FY 2023	2024	Budget to FY 2024		Proj. to FY 2024	
Billing - Water Usage	1,671,923	1,699,100	1,889,000	217,077	13.0%	189,900	11.2%

Total Fund Reserve	\$ 36,176,778	\$ 36,761,613	\$ 34,225,420	\$ 31,938,019	\$ 27,495,697

Operations Budget

The FY 2024 operations budget of \$3,832,783, reflects an increase of \$141,220 (4%) from the FY 2023 budget

Some significant changes in the FY 2024 budget include:

- An increase of \$178,200 to the M&R-Buildings budget for a project to improve the energy efficiency of the Admin building
- An increase of \$51,530 to the Outside Services budget for a planned salary survey and an increase to the cost of sludge hauling.
- An increase of \$49,460 to the Operating Chemicals budget to reflect the impact of inflation
- An increase of \$43,296 to the Software Licenses budget and \$25,000 to IT Services related to increased focus on cyber-security
- An increase of \$29,840 to M&R-Line/Equipment partially related to an upgrade to our two-way radio system to provide redundant communications during emergencies
- A decrease of \$208,100 to Electricity expense with the expectation we will have increased use of surface water
- A decrease of \$96,250 to Professional Services primarily related to a transfer of cost related to geo-thermal monitoring

Table C shows the operating budget for each category with comparisons to the prior year's budget and projected expense.

Table C – Operating Budget Comparison

Account-Name	FY 2023 Budget	FY 2023 Proj.	FY 2024 Budget	Change	Change %

Total	3,691,563	3,522,993	3,832,783	141,220	4%

Negative numbers represent a reduction in budget from last fiscal year and positive numbers represent an increase from last year.

Personnel Budget

The FY 2024 District personnel budget of \$7,224,088 is 12.4% higher than last fiscal year. The number of permanent positions at MCWD increases by 2 to 44 for FY 2024. The District’s Organizational Chart is included as Attachment B.

The personnel budget includes \$199,088 (2.8% of the total personnel budget) for four temporary employees who will work on the summer construction projects. In previous years, the summer construction crew has been contracted from an employment agency and included only in the Capital budget. In addition, two summer interns are included in the budget for special work planned in the Laboratory and Engineering.

The cost of District labor on capital projects is included in the Capital budget. To avoid double counting, the capital labor of MCWD employees is subtracted from the total personnel budget when presenting the combined budget overview. The capitalized labor component is \$389,000.

Table D provides a high-level view of expenses for MCWD personnel and a comparison to FY 2023.

Table D – Personnel Expenses Comparison

	Total Pay	Pension	Insurance	FICA tax	WC Cost	UI Cost	Total Cost
FY 2024 Budget	4,953,844	1,048,874	975,382	83,377	93,276	69,334	7,224,088
FY 2023 Budget	4,358,967	931,966	991,774	64,987	67,418	11,700	6,426,811
Change '24 - '23	594,877	116,909	(16,392)	18,390	25,859	57,634	797,277
% Change	13.6%	12.5%	-1.7%	28.3%	38.4%	492.6%	12.4%

Capital Budget

The District has approximately \$62 million (net of depreciation) in capital assets including, wells, distribution and collection lines for water and wastewater, water and wastewater treatment plants, buildings, vehicles, and equipment. These assets are essential to our mission of reliably providing water and wastewater service to our customers. The capital budget represents the cost of incrementally refurbishing or replacing our infrastructure as it wears out in service and adding new infrastructure to increase the efficiency of operations. This capital budget of \$4,937,387 includes improvements to the distribution and collections systems, rehabilitation of two water tanks, rehabilitation of two production wells, potential acquisition of a location for an additional water tank, and expansions of the wastewater lines in the Parcel and Hwy 203 near Center Street.

Each current-year project is given a Business Risk Evaluation (BRE) rank based on the likelihood and consequence of failure to complete the project. This ranking serves to prioritize projects within and across years.

Table E lists capital projects planned for FY 2024 the next 10 years. The timing and cost of future projects is speculative, with uncertainty increasing each year. Engineering analysis has determined what infrastructure will likely be needed to meet water supply and treatment demands at buildout, but many variables are unknown. The cost for future-year projects is factored up for inflation.

MAMMOTH COMMUNITY WATER DISTRICT

OPERATING AND CAPITAL RESERVE POLICY

Approved: March 17, 2016

Amended: November 17, 2022

POLICY

It is fiscally responsible to set aside cash reserves to prepare for planned and unexpected expenses in the future. To ensure equity between current and future ratepayers, a portion of each year's revenue should be reserved for the replacement of assets that are currently in use. Customers who receive the benefit of the water and wastewater infrastructure should contribute to the replacement of those assets as they age so the cost is shared appropriately between current and future ratepayers.

For each of the funds below, a benchmark for appropriate reserves is provided, and description of circumstances when use of reserve funds is recommended.

The recommended annual contribution to reserves will be the lesser of 5% of revenue or the difference between the total target reserve balance and the total current reserve balance.

Fund 10 – Administrative Operation:

- Operating reserve equal to average current liabilities for Fund 10, plus 20% of the liability for employee sick and vacation leave balances.
- Reserve balance should be used to pay current liabilities when current revenue is insufficient to meet obligations.

Fund 20 – Water Operation:

- Operating reserve equal to six months of operating expenses.
- Water operating reserves should be used when short-term fluctuations in expenses or revenue cause water revenue to be insufficient to meet operating expenses.

Fund 30 – Wastewater Operation:

- Operating reserve equal to six months of operating expenses.
- Wastewater operating reserves should be used when short-term fluctuations in operating expenses or revenue cause wastewater revenue to be insufficient to meet operating expenses.

Fund 21 – Administrative Capital Replacement:

- Reserve, when combined with the reserve of Fund 31, equal to the expected cost of required upgrades to improve the efficiency of the District administration buildings.
- Reserves will be used to replace or upgrade the administration buildings.

- Funds expected to be spent more than four years in the future may be invested in a long-term capital reserve fund as specified by the MCWD Statement of Investment Policy

Fund 22 – Water Capital Replacement:

- Capital Repair and Replacement: reserve equal to 4% of the replacement cost of Fund 22 capital assets. The average expected life of capital assets is about 25 years. 4% (1/25) approximates the annual replacement cost of these assets.
- Reserves will be used for the unexpected replacement of a major component of the water infrastructure (e.g. well, treatment plant), for changes to the infrastructure required to meet new regulatory mandates, or for the planned replacement of assets where the cost of the replacement is greater than the current revenue available.
- Funds expected to be spent more than four years in the future may be invested in a long-term capital reserve fund as specified by the MCWD Statement of Investment Policy

Fund 23 – Wastewater Capital Replacement:

- Capital Repair and Replacement: reserve equal to 4% of the replacement cost of Fund 23 capital assets. The average expected life of capital assets is about 25 years. 4% (1/25) approximates the annual replacement cost of these assets.
- Reserves will be used for the unexpected replacement of a major component of the wastewater infrastructure (e.g. lift stations, treatment plant), for changes to the infrastructure required to meet new regulatory mandates, or for the planned replacement of assets where the cost of the replacement is greater than the current revenue available.
- Funds expected to be spent more than four years in the future may be invested in a long-term capital reserve fund as specified by the MCWD Statement of Investment Policy

Fund 31 – Administrative Capital Expansion:

The purpose of the fund is to provide capital for all future expansion of administrative support services required for operations and infrastructure at build-out. The balance of the fund may be negative or positive, depending on the cash flow of revenue and expansion capital projects. The fund balance should be zero when all infrastructure and administrative support expansion services needed for the customer base at build-out is built and in operation.

Fund 32 – Water Capital Expansion:

The purpose of the fund is to provide for all future expansion of the water infrastructure required to meet the needs of all future customers. The revenue source is water connection fees. Expenditures will be for capital projects that expand the capacity of the system to meet the needs of new users. The balance of the fund may be negative or positive, depending on the cash flow of connection fee revenue and expansion capital projects. The fund balance should be zero when all infrastructure needed for the customer base at build-out has been built and is in operation.

Fund 33 – Wastewater Capital Expansion:

The purpose of the fund is to provide for all future expansion of the wastewater infrastructure required to meet the needs of all future customers. The revenue source is wastewater connection fees. Expenditures will be for capital projects that expand the capacity of the system to meet the needs of new users. The balance of the fund may be negative or positive, depending on the cash flow of connection fee revenue and expansion capital projects. The fund balance should be zero when all infrastructure needed for the customer base at build-out has been built and is in operation.

Fund 96 – New Enterprise:

- Recommended reserve equal to two years' average participation in the employee down payment assistance program.
- Reserves will be used if participation in the employee down payment assistance program in any year is greater than the annual contribution to the fund from District property tax revenues or to purchase additional housing units to meet the needs of the District's employee housing program.

Fund 97 – Trout Habitat Enhancement:

The District has an ongoing obligation according to the Trout Habitat agreement to contribute \$10,000/year (increased annually for inflation) for twenty years ending 2032 and administer the accumulated funds for trout habitat enhancement. There is no target fund balance; the balance will be the sum of accumulated contributions less expenditures according to the settlement agreement.

Fund 98 – LADWP Settlement:

The District has a future obligation of \$3.2 million (increased by CPI each year between 2014 and final settlement) to LADWP as part of the agreement entered into by the District and LADWP in July 2013. The date of the final payment will be affected by the amount of water used by the District's customers but will be between the years of 2063 and 2073. The annual contribution to meet the future obligation is approximately \$50K.

MAMMOTH COMMUNITY WATER DISTRICT
FISCAL YEAR 2024
OPERATING AND CAPITAL RESERVE FUND TARGETS

Fund 10	Administrative Operation	\$75,000
Fund 20	Water Operation	\$2,213,000
Fund 30	Wastewater Operation	\$2,010,000
Fund 21	Administrative Replacement	\$1,000,000
Fund 22	Water Capital Replacement	\$3,320,000
Fund 23	Wastewater Capital Replacement	\$4,065,000
Fund 31	Administrative Expansion	\$1,000,000
Fund 32	Water Expansion	\$1,883,000 (current balance)
Fund 33	Wastewater Expansion	\$798,000 (current balance)
Fund 96	New Enterprise	\$1,000,000
Fund 97	Trout Settlement	\$130,000
Fund 98	LADWP Settlement	\$1,050,000

The projected available fund balance (cash – liabilities) at the beginning of fiscal year 2024 is projected to be approximately \$31,308,000. The target reserve balance for the end of fiscal year 2024 is \$18,544,000. The proposed operating and capital budget for fiscal year 2024 will result in a contribution to operating and capital reserves of approximately \$1,298,000 and a contribution of \$1,000,000 to the LADWP reserve fund. If budgeted revenue and expenses occur as planned, we will end fiscal year 2024 with a reserve balance of approximately \$33,606,000.
